## **1 Introduction to the course**

This course integrates pedagogical and theoretical concepts related to teaching and learning in an international context. Candidates will develop global competencies and teaching skills via exposure to international students and educational environments. The seminar aspect of the course will employ online discussions, journal writing, and interdisciplinary readings to enrich the cross-cultural experiences and facilitate the intercultural development of teacher candidates. Candidates in the Elementary Education Program are eligible to register for 9 credit hours.

## **2 Syllabus overview**

The course is structured around four key areas:

1. Foundations of International and Comparative Education

2. Bilingual education theory and practice
3. Cultural competence and critical global citizenship
4. Field experience in a bilingual school setting

Each area includes lectures, readings, discussions, and practical applications.
